Training Topic – AMC Toolbox Use:

The training team will provide a quick summary and demonstration of the AMC Toolbox that is available to operators on the MCESD website. This AMC Toolbox was made possible by 5-year cooperative FDA grant. Progress on the library of resources and videos will be showcased for stakeholders.

Refilling Returnables for Smoothies:

Can we extend previous decision regarding refilling returnable cups for coffee with milk to other TCS beverages such as smoothies with kale/ spinach/ melon. Drinks made when ordered. Discussion with WRO supervisors concluded no hazard if parameters outlined in previous decision are followed (wash/ rinse/ sanitize; cross contamination of equipment prevented; proper hand washing; other requirements under 3-304.17 B and C.

Discussion/Sharing of Field Findings

The Committee will recount some recent food preparation trends and other findings from the field to engage in a dialogue about food safety practices and food code regulation. These topics include:

- Self-service of raw animal foods at a grocery setting
- Fermented sausages bearing “keep refrigerated” labeling and date marking requirements on these types of items
- Roasted duck being resold from restaurant to another restaurant

Round Table, Process Improvements, Division Manager Topics:

Time will be given for any topics not submitted ahead of time and to discuss any future committee meeting agendas. Visiting stakeholders will also have the floor to bring forth any process improvement ideas for the Environmental Health (EH) Division.
