

# Check. Choose. Go.®

**When you need care, call your primary care physician or family doctor first.**

Your physician has easy access to your records, knows the bigger picture of your health and may even offer same-day appointments to help meet your needs. When seeing your physician is not possible, however, it's important to know your quick care options to find the place that's right for you and help avoid financial surprises. Compare your choices today at [uhc.com/checkchoosego](http://uhc.com/checkchoosego).

## Freestanding ERs

Many people have been surprised by their bill after visiting a freestanding emergency room (FSER). FSERs, sometimes referred to as urgency centers, bill at ER rates (or higher) and can be \$1,800 more than an Urgent Care Center. Neither located in nor attached to a hospital, FSERs are able to treat similar conditions as an ER but do not have an ER's ability to admit patients.

## Ask before you enter:

- Is this an urgent care center or an ER?
- Is this facility a network provider?

<sup>1</sup> The Designated Virtual Visit Provider's reduced rate for a virtual visit is subject to change at any time.

\*Source 2017: Average allowed amounts charged by UnitedHealthcare Network Providers and not tied to a specific condition or treatment. Actual payments may vary depending upon benefit coverage. (Estimated \$1,800.00 difference between the average emergency room visit and the average urgent care visit.) The information and estimates provided are for general informational and illustrative purposes only and is not intended to be nor should be construed as medical advice or a substitute for your doctor's care. You should consult with an appropriate health care professional to determine what may be right for you. In an emergency, call 911 or go to the nearest emergency room.
