Checklist for Stormwater Pre-Construction Application

The following items are required: Please place copies on flash drive or CD:

- Completed general application form, signed by owner or authorized agent.
- Fees: \$1050 plan review, \$325 inspection. Check, cash or Visa/Mastercard will be accepted.
- Copy of NOI Authorization received from ADEQ or evidence of the State’s construction permit. Include proof of any required environmental approvals or permits (including USACOE permits).
- One electronic copy of the Civil Engineering Plans.
- One electronic copy of the Stormwater Site Plan. This Site Plan must:
 - Clearly identify the site (including boundaries, scale, and north arrow);
 - Cover the complete interior and perimeter of the construction site during all phases of the project (multiple sheets may be required to clarify pre-construction and construction conditions, and construction phasing);
 - Depict the placement of Best Management Practices (BMPs) to be used during the preconstruction land disturbance and during construction phase of a construction project;
 - Consider all possible water quality impacts;
 - Explain in sufficient detail the construction BMPs* to be followed by the owner and all who work on the site; and
 - Define the BMPs to ensure that erosion will be minimized, sediment transport managed, and controls for other wastes are in place during the construction process.

Please note that you must keep a site plan on-site to track updates and changes as they occur.

Once submitted, you will receive a stormwater tracking number (to be used on all correspondence with and future submittals to Environmental Services Department).

For additional information about this application process, please refer to the Pre-Construction and Construction Plan Review and Inspection flow chart, at <http://www.maricopa.gov/EnvSvc/AboutUs/StormWater/docs/preconflow.pdf>. For questions, please visit our website at www.maricopa.gov/stormwater or contact the Stormwater Quality Program at the number above.

*The Stormwater Program considers the BMPs found in the Maricopa County Flood Control District (MCFCD) Erosion Control Manual (<https://www.maricopa.gov/DocumentCenter/View/2368/2015-03-Drainage-Design-Manual-for-Maricopa-County-Volume-III-Erosion-PDF?bidId=>) as the minimum acceptable standard for BMPs. The only exception is that the Stabilized Construction Entrance requirements of Maricopa Air Quality (AQ) Department Rule 310 (<https://www.maricopa.gov/DocumentCenter/View/5354/Rule-310---Fugitive-Dust-from-Dust-Generating-Operations-PDF?bidId=>) are also acceptable. The use of any other BMPs will require written justification demonstrating that the proposed BMPs meet or exceed the requirements of the MCFCD BMPs.
