

Situation:

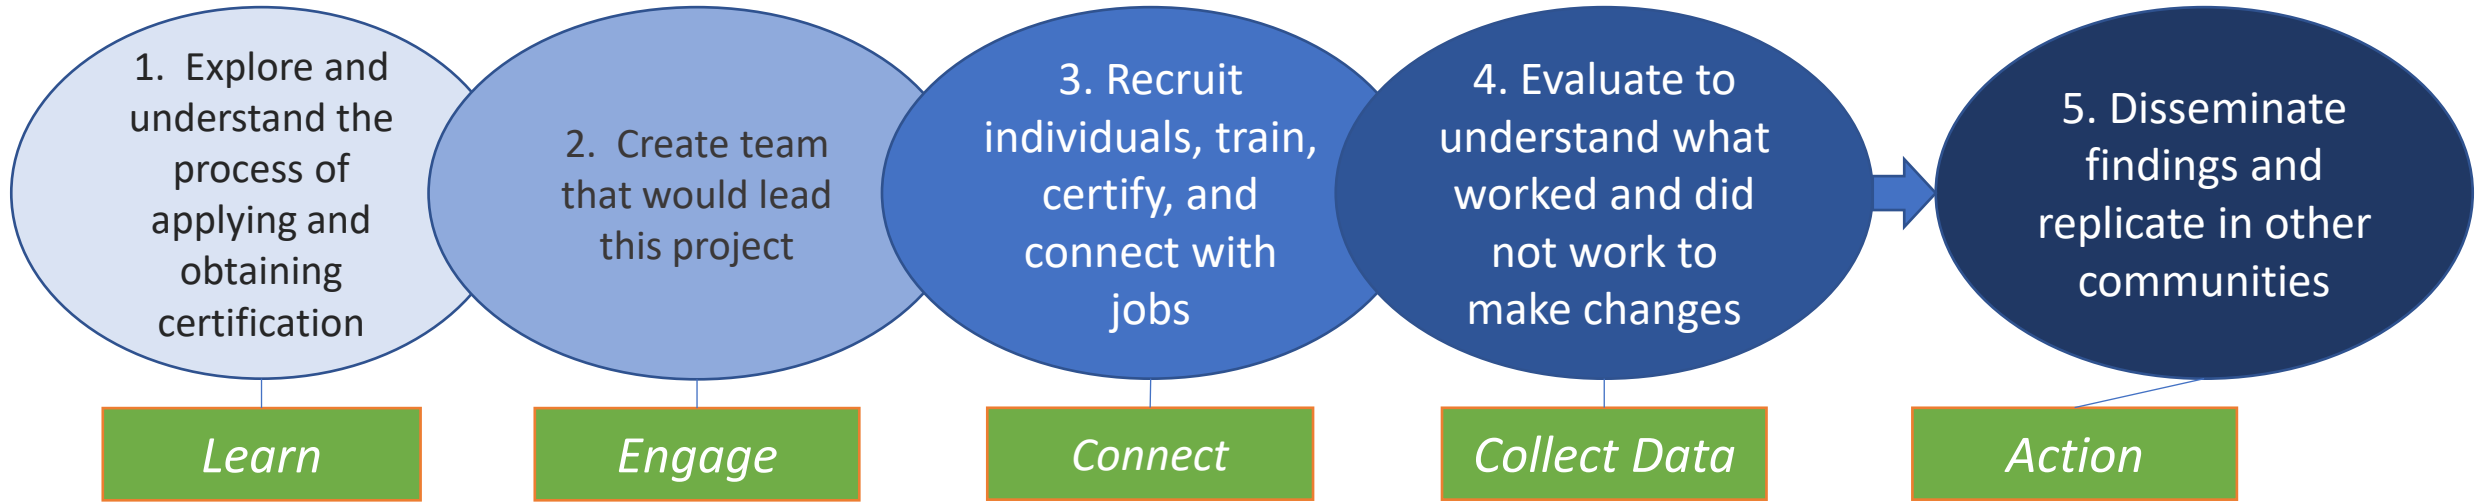

Weatherization programs in MC are in a need of certified staff that will weatherize homes.

Solution: Recruit individuals from low-income communities and connect them to the weatherization program.

Purpose: Alleviate poverty and improve home weatherization through expansion of Weatherization workforce program in Maricopa County (MC)

Priorities:

1. Explore and understand the process of applying for training and obtaining certification for weatherization program
2. Recruit individuals from low-income communities in collaboration with community-based organizations to attend the training and get certified
3. Connect certified individuals with stakeholders who can connect them with jobs
4. Evaluate the whole project

Outcomes: Reduce inequality in vulnerable communities, improve quality of life, and health status
